

Automotive Repair Claims

When it comes to auto, the pace of technological advancement is only speeding up. From electric and semi-autonomous vehicles to onboard ECU's, cars are starting to look more like computers with wheels. That's why ProSight built an industry-leading claims team with the know-how to advocate for you. We are the vehicles pros.

Our Claims professionals have the credentials and expertise you'd expect from an industry leader.

ASE MASTER
CERTIFIED

FACULTY, AUTOMOTIVE
TECHNOLOGY, JCCC

TWO-TIME HONDA TOPTECH
NATIONAL WINNER

ASE Master Certification applies to Billy Eddie. Honda Top Tech Awards are 1990 and 1993 Zone 8 National Awards. JCCC faculty position is current.

How the ProSight Claims Team Is Different

Most adjusters want to settle a claim and move on, sticking you with a deductible and a history on your loss run.

ProSight is different. We take advantage of the technology available and dig into the science to analyze the claim.

Whether it's accident reconstruction, studying crash data, or finding product defects, we work hard to make sure you don't pay too much, or worse, pay for something that isn't your fault.

Specialist Spotlight

BILLY EDDY
Senior Claims Examiner

Billy has been fantastic to deal with. He is an expert with impressive automotive and mechanical knowledge. Most importantly, Billy is great with the execution and details. He finds the facts to get the claim resolved honestly, and immediately. He is a pleasure to work with and I would highly recommend him.
