

Auto Repairers

Coverage for Business Challenges

From EVs to onboard ECUs, cars are becoming more like computers on wheels every day. If you repair a vehicle in the morning, the procedures may change by the afternoon. That's why auto repairers need insurance experts with deep industry knowledge. From our underwriters who spring from the industry itself to the ASE and I-CAR Platinum certified techs on our claims team, ProSight has the vehicle expertise and know-how to advocate for the needs of automotive repairers.

We employ professionals certified by ASE. Let us show you their credentials.

Why ProSight

Expertise

We're not just insurance experts, we're automotive experts. We sit on national automotive repair committees, publish articles in the space, and present at industry events like SEMA/CIC. Our unique position in both worlds gives us credibility as recognized leaders in the automotive repair industry.

Focused Distribution

We collaborate with select garage expert agents to deliver unique value to automotive businesses.

Differentiation

Working with shop owners and suppliers to the automotive industry, we create unique solutions that include advocating on behalf of our insureds for proper OEM repairs and service.

Our customers benefit through the specialized insurance solutions and expertise that help reduce risk and increase operational efficiencies.
